

Price of Waterproof Cable Tray Accessories

AI Overview

Waterproof cable tray supports typically range from \$15 to \$150 per unit, depending on material, size, and load capacity.

Overview Waterproof cable tray supports are designed to protect cables from moisture, dust, and environmental damage, making them essential for industrial, commercial, and outdoor installations. They are available in various materials, including stainless steel, galvanized steel, aluminum, high-density polyethylene (HDPE), and fiberglass-reinforced plastic (FRP), each offering different levels of corrosion resistance, mechanical strength, and electrical insulation.

Price Factors

- Material:**
 - Stainless steel (A316/A4):** High corrosion resistance, suitable for harsh environments, typically \$50–\$150 per support.
 - Galvanized steel:** Moderate corrosion resistance, commonly used in industrial settings, around \$20–\$80 per support.
 - FRP or HDPE:** Lightweight, excellent insulation, and corrosion-resistant, usually \$15–\$60 per support.
- Size and Load Capacity:** Supports range from small brackets (50–100mm) to large trapeze or C-profile supports (up to 500mm or more). Larger or higher-load supports cost more due to increased material and structural requirements.
- Design and Coating:** Pre-galvanized, hot-dipped galvanized, epoxy-coated, or polymer-coated finishes enhance durability and waterproofing, affecting price. Specialized designs like trapeze supports or overhead hangers may be priced higher due to ease of installation and structural robustness.

Typical Price Range

- Small wall-mounted or stand-off brackets: \$15–\$40 per unit
- Medium-duty overhead or G-hanger supports: \$40–\$90 per unit
- Heavy-duty trapeze or large FRP/steel supports: \$90–\$150 per unit

Additional Considerations Bulk purchases often reduce per-unit cost, especially from suppliers like Alibaba or industrial distributors. Ensure compatibility with your cable tray system (ladder, ventilated, or solid-bottom) and e...
