

Price of cable tray diagonal connector

AI Overview

Cable tray diagonal connectors typically range from \$50 to \$55 per unit, depending on the manufacturer and material. For example, the Thomas and Betts Superstrut® AP232EG diagonal channel connector is priced at \$52.80 each and is designed for secure diagonal positioning of strut channels in cable tray systems (House of Electrical) . These connectors are usually made from steel with corrosion-resistant finishes and are compatible with standard strut channels.

Factors Affecting Price

Material: Steel, stainless steel, or aluminum options can influence cost.

Size and load rating: Larger connectors or those rated for heavier loads may be more expensive.

Manufacturer: Brands like Thomas and Betts, B-Line, and JLH Electric may have slightly different pricing.

Quantity: Bulk purchases can reduce the per-unit cost.

Alternative Options

Custom or OEM connectors: Some manufacturers like JLH Electric offer custom-fabricated diagonal connectors at competitive factory prices .

Other distributors: Grainger and McMaster-Carr also stock similar connectors, though prices may vary and may require account login or ZIP code for exact pricing .

In summary, for a standard steel diagonal connector suitable for most cable tray installations, expect to pay around \$50–\$55 per piece, with variations depending on material, size, and supplier.
