

Price of cable tray slant support

AI Overview

Cable tray slant supports vary in price depending on material, load capacity, and design, typically ranging from moderate to high cost for industrial-grade systems.

Overview of Cable Tray Slant Supports

Cable tray slant supports, also known as hanging stems, suspension stems, or angled brackets, are used to securely suspend cable trays from ceilings, walls, or structural beams. They are essential for maintaining proper cable routing, preventing sagging, and ensuring compliance with electrical standards.

Types and Materials

- Steel Supports:** Heavy-duty, high load-bearing capacity, often used in industrial or commercial installations.
- Fiber-Reinforced Plastic (FRP):** Corrosion-resistant, suitable for light to medium loads.
- Wire Mesh Supports:** Lightweight, flexible, and ideal for light-duty applications.

Load Capacity and Design

- U-profile stems:** Lighter, versatile, suitable for standard cable trays.
- I-profile stems:** Higher load-bearing, preferred for wide spans or heavy cable ladders.
- Hanging bars and clamps:** Can support up to 280 lbs per foot depending on spacing and installation.

Factors Affecting Price

- Material:** Steel is generally more expensive than FRP or aluminum.
- Load Rating:** Supports designed for heavier loads cost more.
- Length and Profile:** Longer stems or I-profile designs increase cost.
- Corrosion Resistance:** Zinc-plated or coated supports are priced higher for durability.
- Brand and Supplier:** Premium brands like Legrand, Schneider Electric, or MP Husky may charge more for quality and reliability.

Typical Price Range

While exact prices are not listed in the sources, industrial-grade cable tray slant supports generally range from \$20 to \$150 per unit, depending on the factors above. Custom or heavy-duty supports for large spans or high loads can exceed this range.

Recommendations

- Determine the load requirements and span length before selecting a support.
- Choose material and profile based on environmental conditions (e.g., corrosion, indoor/outdoor).
- Consult suppliers like McMaster-Carr, RS Compone...
