

Price of right-angle tee connectors for cable trays

AI Overview

Right-angle tee connectors for cable trays typically range from \$10 to \$150 per piece, depending on material, size, and manufacturer.

Overview Right-angle tee connectors are essential fittings used to create a three-way intersection in cable tray systems, allowing cables to branch in multiple directions while maintaining organized routing . They are available in various materials including galvanized steel, stainless steel, aluminum, and fiberglass-reinforced plastic (FRP), which affects both durability and price .

Price Range Light-duty or small aluminum tees: Approximately \$10-\$30 per piece, suitable for smaller cable trays or low-load applications . Medium-duty steel or stainless steel tees: Typically \$30-\$80, offering higher strength and corrosion resistance . Heavy-duty or custom-fabricated tees: Can cost \$80-\$150 or more, especially for large industrial trays or specialized designs . Prices may vary based on supplier location, quantity purchased, and shipping costs. Bulk orders often reduce the per-unit cost.

Sourcing Options IndiaMart: Offers a wide range of cable tray tees from multiple manufacturers across India, with options for custom sizes and materials . McMaster-Carr: Provides over 3,300 right-angle tee products with same-day or next-day delivery, suitable for immediate procurement . RS Components and JLH Electric: Supply high-quality cable tray accessories including tees, elbows, and bends, with detailed specifications for industrial applications . DMV Metal KrafTs: Manufactures perforated and ladder-type cable tray tees for building and industrial installations .

Considerations When selecting a right-angle tee connector, consider: Material compatibility with your cable tray system Load capacity and duty rating (light, medium, heavy) Environmental conditions (corrosion, temperature, moisture) Ease of installation and availability of matching accessories By comparing suppliers and ma...
