

Price of unarmored optical cable

Overview

Fiber-optic cable materials typically cost \$1 to \$6 per linear foot, depending on fiber count and cable type. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. But when it comes to protecting your fiber optic network from rodents, construction damage, and harsh weather, the difference between these two cable types can mean the difference. Buyers typically pay for fiber optic cable by length, fiber type, and installation complexity. Main cost drivers include cable grade (indoor vs outdoor, armored), distance, and labor for trenching, splicing, and termination. Structural Features. Let's be real: If you are wondering "how much does fiber optic cable cost" for your next project, you've probably seen quotes that make zero sense. One supplier in your inbox promises \$0. Whether you're expanding your data center, connecting multiple buildings, or future-proofing your connectivity, accurate pricing information helps you budget effectively. Cost factors include material.
