

Quotation for Steel Tray Cable Trays in Southern Europe

AI Overview

Steel cable trays in Southern Europe are available from multiple suppliers, including Eurostrut, Trayco, and RED Metal, with options in galvanized or stainless steel, various widths, heights, and configurations, suitable for industrial and commercial applications.

Supplier Options and Product Features

Eurostrut offers steel cable trays made of hot-dip galvanized steel or stainless steel, suitable for indoor and outdoor use. Their trays are designed for fast installation, flexible configurations, and safe cable routing, including open or perforated designs to reduce overheating. Quotes can be requested directly via their webshop . Trayco provides cable trays with integrated ends, emphasizing lightweight construction, high capacity, and ease of assembly. Their designs can offer up to 50% extra capacity in certain applications, and customized quotes are available for specific project requirements . RED Metal, based in Romania, manufactures steel cable trays with standard lengths of 3000 mm, widths from 50 to 600 mm, and heights from 35 to 100 mm. They use galvanized sheet metal with perforations and embossing, ensuring proper ventilation and fire safety. Delivery across Europe is available, and they provide CE-marked products with relevant certifications .

Market Context in Southern Europe

The Southern Europe cable tray market is mature but strategically important, driven by industrial renovations, renewable energy projects, data center expansions, and modernized transportation networks. Key countries include Italy, Spain, Portugal, and Greece, with demand influenced by EU safety standards (IEC 61537), fire safety regulations, and sustainability requirements. Steel is the preferred material for its load-bearing capacity and corrosion resistance, with ladder, perforated, and solid-bottom designs commonly used .
