

Reliable suppliers of anti-corrosion fiberglass cable trays

AI Overview

Top manufacturers of anti-corrosion fiberglass cable trays include ALOIS Composites, Oglaend System Group, Enduro Composites, MP Husky, and NHC, all known for high-quality, corrosion-resistant FRP products.

Leading Companies and Their Strengths

ALOIS Composites A European leader, ALOIS Composites specializes in pultruded fiberglass-reinforced cable trays designed for highly corrosive environments such as chemical plants, offshore platforms, and power utilities. Their trays combine high strength with minimal weight, ensuring easy installation and long-term durability in harsh conditions.

Oglaend System Group A global provider with decades of experience, Oglaend offers fiberglass trays engineered for extreme conditions, including oil & gas, marine, and industrial sectors. Their products feature unmatched corrosion resistance and fire retardancy, reducing maintenance downtime in challenging environments.

Enduro Composites Dominating the North American market, Enduro produces FRP cable trays with exceptional dielectric properties and high strength-to-weight ratios, ideal for high-voltage applications and coastal installations where galvanic corrosion is a concern. Their trays are tested for chemical resistance and structural durability.

MP Husky MP Husky's fiberglass cable trays are widely used in offshore oil and gas industries. They are non-conductive, corrosion-resistant, and lightweight, with a strength-to-weight ratio surpassing steel. Available in polyester and vinylester resin systems, these trays meet ASTM flame and self-extinguishing standards, ensuring long-term reliability.

NHC (Nanjing Hypro Composites) NHC manufactures high-quality FRP trays with corrosion resistance, high strength, flame retardancy, and anti-static properties. Their products are ISO-certified and customizable, making them suitable for diverse industrial applications, includin...
