

Spanish electrical distribution box installation manufacturer

AI Overview

Leading Spanish manufacturers of electrical distribution boxes include IDE Electric, Solera, and various specialized producers listed on Europages. IDE Electric is a prominent Spanish manufacturer established in 1987, producing both plastic and metal distribution boxes, low-voltage panels, and industrial sockets and plugs for telecom and industrial applications. Their products are certified for European standards and exported to over 50 countries, offering solutions for residential, commercial, and industrial installations. IDE provides customizable cabinets, modular enclosures, and accessories such as busbar supports and distribution blocks, with protection ratings ranging from IP44 to IP67. Solera is another leading manufacturer in Spain, specializing in low-voltage electrical equipment and weatherproof distribution boxes. They offer a wide range of solutions for professional installations, including multipoint sockets and photovoltaic project materials. Solera emphasizes innovative design, safety, and adaptability to various project requirements, making them suitable for demanding industrial and residential applications. Other Manufacturers and Suppliers The Europages B2B platform lists numerous Spanish producers of distribution boxes for electrical installations. These include manufacturers of flush-mounted mechanism boxes, panels for ICP and distribution, junction or inspection boxes, and pre-installation boxes for air conditioning and hollow partition walls. This platform allows direct contact with suppliers for customized solutions and bulk orders. Additional Notable Companies Other companies involved in electrical distribution in Spain include Ormazabal, which focuses on high-tech solutions for public distribution networks and renewable energy integration, and Grupo Electro Stocks and GRUDILEC, which are d...
