

Sudan Low-Pressure Transmission Unit Configuration Manufacturer

AI Overview

Key manufacturers of low-pressure transmission units in Sudan include SES Electric Company, TRANSUDAN, and Trutech Products, offering a range of transformers and power transmission equipment.

SES Electric Company SES Electric Company, operating in Sudan and Turkey, is a leading supplier of high and low voltage electrical equipment, including transformers, conductors, steel towers, and cables. They also provide turnkey EPC services for overhead transmission lines, substations, power plants, and renewable energy projects, making them a comprehensive solution provider for both domestic and international markets.

TRANSUDAN TRANSUDAN specializes in distribution transformers and electromechanical equipment. Their products include:

- Distribution transformers: 25–2500 kVA, up to 36 kV, mono- or tri-phased, oil-immersed (ONAN) or dry-type (cast-resin)
- Dry-type transformers: 250 kVA–25 MVA, up to 36 kV, with natural (AN) or forced cooling (AF)

Quality standards: ISO 9001, IEC 60076 compliance, with routine and special testing capabilities

Advantages: Fireproof, self-extinguishing, low maintenance, high endurance against short-circuits, and suitable for humid or polluted environments

TRANSUDAN also targets export markets across Africa and continues to innovate with advanced transformer designs.

Trutech Products Trutech Products is another prominent transformer manufacturer in Sudan, offering a wide range of products:

- Distribution transformers for urban and rural energy distribution
- Isolation transformers for safety and noise reduction
- Auto transformers for voltage modification
- Control transformers, AC/DC chokes, rectifier transformers

Their products are designed for rugged performance and adaptability to various industrial and commercial applications.
