

Vietnam Bridge Construction Price

AI Overview

The cost of building notable bridges in Vietnam varies significantly, with the Golden Bridge costing approximately \$2 billion, while other bridges like the Dragon Bridge and Tan Vu - Lach Huyen bridge cost around \$88 million and \$342 million, respectively.

Notable Bridge Costs

- Golden Bridge:** Located in Ba Na Hills, this iconic pedestrian bridge, supported by giant hands, was built at a cost of approximately \$2 billion. It was designed to attract tourists and enhance the area's appeal.
- Dragon Bridge:** This bridge spans the Han River in Da Nang and cost about \$88 million. It features a unique design that resembles a dragon and was completed in 2013.
- Tan Vu - Lach Huyen Bridge:** This bridge, which opened in 2017, cost around \$342 million. It is notable for its length and modern design, serving as a critical infrastructure link in the Hai Phong area.
- Upcoming Sea-Crossing Bridge:** A new bridge linking Ca Mau Province to Hon Khoai Island is projected to cost approximately \$1.2 billion. This bridge is expected to improve accessibility and boost tourism in the region.

These examples illustrate the range of costs associated with bridge construction in Vietnam, reflecting both the scale of the projects and their intended purposes.
