

Warranty for 6-core special optical cable

AI Overview

Most 6-core optical cables come with warranties ranging from 15 years to a lifetime, depending on the manufacturer and installation conditions. Manufacturer Warranty Overview Proterial Cable America offers a lifetime warranty on fiber optic cables, including 6-core optical cables, covering defects in materials and workmanship, with limited coverage on installations. Corning Optical Cable provides a standard warranty ensuring that all goods are free from defects in material and workmanship at the time of shipment. Their warranty allows for repair, replacement, or refund of defective products, but labor costs for installation or removal are generally not covered unless pre-authorized. Optical Cable Corporation (OCC) offers a 25-year extended channel/link limited warranty for fiber optic cables installed by certified MDIS installers. This warranty guarantees that the cables will perform according to TIA/EIA and ISO/IEC standards and remain free from defects in material and workmanship for at least 25 years from the date of purchase. A 15-year component limited warranty also applies to passive hardware and fiber components. PureNet provides a 25-year warranty for fiber optic cables when installed with approved connectivity systems. This warranty covers manufacturing defects, performance failures, and installation-related concerns, ensuring compliance with ANSI/TIA568 standards. Key Considerations Eligibility: Extended warranties often require registration or installation by certified installers. For example, OCC's 25-year warranty is valid only if the installation is performed by an MDIS-certified installer and properly documented. Coverage: Most warranties cover defects in materials and workmanship, but do not cover damage from negligence, improper installation, accidents, or natural disasters. Transferability: Some warranties are transferable if the manufacturer is notified in writing prior to the transfer date. Remedies: Manufacturers typically offer repair, replacement, or refund of defective products. L...
