

Waterproof power distribution box

AI Overview

Here are some key features of waterproof power distribution boxes:

- Protection from Elements:** Waterproof distribution boxes are designed to keep electrical connections safe from water, dust, and harsh weather conditions.
- Material and Durability:** They are typically made from tough materials like ABS plastic or stainless steel, ensuring long-lasting performance.
- IP Ratings:** Many waterproof boxes have an IP65 rating, which means they are protected against water and dust, making them suitable for outdoor use.
- Versatile Options:** Available in various configurations, including options for multiple circuits and DIN rail setups, catering to different wiring needs.
- Specific Products:** For example, some models come with multiple sockets and are designed for high current applications, ensuring safety and reliability.

These features make waterproof power distribution boxes ideal for outdoor electrical setups.
