

What are some Israeli fiber optic cable tray manufacturers

AI Overview

Basor is a key provider of fiber optic cable trays in Israel, offering specialized solutions for data centers and telecommunication infrastructure. Basor (Basorfil) Basor provides fiber optic cable management systems designed for data centers, telecommunication rooms, and complex network installations. Their Basorfil product line supports UTP, fiber optic, video, alarm, and power cables, ensuring physical protection, bend radius management, and safe routing of sensitive optical cables. The trays are made from halogen-free PC-ABS material, compliant with UL 94 V-0 standards, making them safe and durable for mission-critical environments. Basor solutions are modular and adaptable, allowing for flexible installation in crowded or evolving network spaces. MER Group While primarily focused on fiber optic network infrastructure, MER Group in Israel has decades of experience in fiber optic technology, including installation and maintenance. They may provide integrated solutions that include cable trays as part of their broader communication infrastructure services. Q-PAZ Technologies Q-PAZ acts as a distributor and representative for international manufacturers like Carlisle Interconnect Technologies (CIT), which produces high-performance fiber optic components, including cable trays and installation kits. Through Q-PAZ, Israeli clients can access CIT's global product line for fiber optic cable management. S.P.G (Nesher) S.P.G specializes in developing, manufacturing, and integrating fiber optic communication products, including turnkey solutions for complex systems. While their focus is on optical systems and high-performance equipment, they may provide customized cable management solutions as part of integrated fiber optic projects. Summary For fiber optic cable trays in Israel, Basor is the most direct manufacturer offering specialized tray systems. MER Group...
