

What are some manufacturers of horizontal cable tray elbows

AI Overview

Some notable manufacturers of horizontal cable tray elbows include PUPCO, Atkore, DKC Europe, G-STEEL TRADING, and Kim Long Trading. Key Manufacturers and Offerings

PUPCO offers 30° horizontal elbows suitable for large-diameter cables and long-span installations. Their elbows are compatible with various NEMA classes and provide seamless transitions between straight sections and fittings.

Atkore manufactures aluminum channel horizontal elbows, designed for fast and secure installation of power, control, and communication cables. Their elbows come with pre-punched holes and standard splice plates for easy assembly.

DKC Europe provides a range of horizontal elbows as part of their Combitech cable tray system, suitable for industrial and commercial applications.

G-STEEL TRADING supplies galvanized steel horizontal elbows in multiple angles, including 45° and 90°, with customizable widths and heights to fit specific project requirements.

Kim Long Trading offers horizontal elbows made from galvanized steel, stainless steel, or aluminum, designed for durability and smooth cable routing in industrial plants, data centers, and commercial buildings.

Considerations When Choosing a Manufacturer

Material: Options include galvanized steel, stainless steel, and aluminum for corrosion resistance.

Angle and Size: Common angles are 30°, 45°, and 90°, with widths ranging from 50 mm to 800 mm.

Compatibility: Ensure the elbow matches the cable tray system class and type.

Customization: Some manufacturers offer custom dimensions and configurations for specific project needs. These manufacturers provide a variety of horizontal cable tray elbows suitable for different industrial and commercial applications, ensuring flexibility, durability, and ease of installation.
