

XMR type distribution box specifications

AI Overview

The XMR Distribution Box is a wall-mounted or concealed power distribution unit rated for 380V and below, with IP30 protection and compliance with GB7251-1 and IEC60439-1 standards.

General Overview The XMR series distribution box is a power distribution unit designed for industrial and civil buildings, supporting power distribution, lighting distribution, and automation control in power systems with a rated voltage of 380V or below and a frequency of 50Hz. It is suitable for both industrial and residential applications and can be customized according to component model, specification, and quantity.

Construction and Materials Box Body: Welded from cold-rolled steel plate for durability and structural integrity. Surface Treatment: Electrostatic spray coating, providing both aesthetic appeal and corrosion protection.

Doors and Grounding: Both the door and the box are equipped with grounding screws and connected via multiple flexible wires, ensuring effective grounding protection.

Enclosure Type: Closed structure, suitable for wall-mounted or concealed installation inside walls.

Electrical and Safety Features Rated Voltage: 380V and below Frequency: 50Hz Protection Rating: IP30, providing protection against solid objects larger than 2.5 mm but not against water.

Standards Compliance: Meets GB7251-1 (Chinese low-voltage switchgear standard) and IEC60439-1 (international standard for low-voltage switchgear and controlgear assemblies).

Applications Industrial and civil buildings Power distribution and lighting systems Automation control in power systems Customizable control functions based on component configuration.

Additional Notes The XMR Distribution Box is manufactured by South Asia Electrical Equipment Limited, a certified company with CCC and ISO9001:2008 quality management certifications, ensuring reliability and stability of the product. The company provides a sales and after-sales network across major cities, supporting installation and maintenance. This combination of robust construc...
